Notes and features

- The Trelleborg TM700 Progressive Traction is a new TM700 product line.
- Just like the TM700, it provides excellent self-cleaning properties, outstanding traction in the field and the best possible ride comfort on the road.
- Typical of the Progressive Traction are special double lugs that greatly increase traction when needed and should therefore increase the efficiency of the tyre.
- The tyre was developed specially for tractors in the performance range from 100 up to 240 hp.
